Madelines hair is slightly damp she said she just got a bath. Madeline then wanted to play with the mini racetrack. Mom had to use the restroom so I worked with Mom while Reggi stayed with child for about 2 minutes. Madeline talked about having ice cream last night & then called it "poop." At one point Madeline said "Lets call the doctor" & answered herself & said "ok" then played with the race cars again. Mom asked if she should keep her focused on one task & I replied that here is a "child led" environment & she can go from one activity to the next as she wishes but in Mom said what if the child has ADHD & I said that would be more for a classroom not here. Mom brought out some snacks — m & m's & popcorn.
